Facts Bingo

Use two dice with these bingo cards. The dice must be 5,6,7,8,9,10 dice to get these combinations.

Up to four players (four cards).

This game is played like traditional bingo.

Each player covers the FREE space.

After determining playing order the first student rolls the dice. Calling the sum of the roll of the two dice ALL players cover that number on their card.

Second player rolls the dice and calls the sum of the total of the two dice. All players cover that number on their card. If that number is already covered, players wait for the next number to be called.

Play continues with each player taking a turn to roll the dice and call the sum.

First player to have five in a row...calls FACTS....and is the winner.
